

This listing of claims will replace all prior versions, and listings, of claims in the application.

**Listing of Claims:**

1. (Canceled)
2. (Canceled)
3. (Previously Presented) A PET scanning system comprising:
  - a PET scanner comprising a cavity for accepting a patient and a plurality of PET detector modules arranged about said cavity, each PET detector including a  $\text{LaBr}_3$  or  $\text{LaCl}_3$  scintillator comprising a plurality of  $\text{LaBr}_3$  or  $\text{LaCl}_3$  crystals, respectively, and said scintillator having a decay time constant  $\tau \leq 35$  ns and a light output at least equal to the light output of  $\text{NaI(Tl)}$ , and a plurality of photomultiplier tubes arranged with respect to said plurality of scintillator crystals wherein each photomultiplier tube receives light output from several of said scintillator crystals and wherein said scintillator crystals and said photomultiplier tubes are arranged respectively peripherally around said cavity;
  - a time stamp circuit that records the time of receipt of gamma rays by respective PET detectors and provides timing data outputs; and
  - a processor that receives said timing data outputs, calculates time-of-flight (TOF) of gamma rays through a patient in the cavity, and uses said TOF of gamma rays in the reconstruction of images of the patient.
4. (Canceled)
5. (Canceled)
6. (Currently Amended) A PET ~~detector~~ scanning system as in claim [1] 3, wherein said scintillator crystals are about 30 mm thick.
7. (Currently Amended) A PET ~~detector~~ scanning system as in claim [1] 3, wherein said scintillator crystals have cross-sections of approximately 4 mm by 4mm.

**DOCKET NO.:** UPN-4296  
**Application No.:** 10/706,799  
**Office Action Dated:** August 27, 2007

**PATENT  
REPLY FILED UNDER EXPEDITED  
PROCEDURE PURSUANT TO  
37 CFR § 1.116**

8. (Currently Amended) A PET ~~detector~~ scanning system as in claim [1] 3, wherein said scintillator crystals are connected to said photomultiplier tubes through a light guide using optical coupling.
9. (Currently Amended) A PET ~~scanner~~ scanning system as in claim [2] 3, wherein said plurality of PET detector modules are arranged in an approximately cylindrical configuration about said cavity.
